Mail checks to: Green Team Arrowhead c/o Jeff Perlis • P.O. Box 2319 • Lake Arrowhead, CA 92352

**Green Team Arrowhead** is a group of citizens concerned about the problems that face our world, our country, our state, and our community. As a nation we are using and abusing our resources at a rate that, if continued, will make our planet uninhabitable. We believe that each of us needs to do our part in preserving and protecting our environment.

We seek green solutions that will have impact upon the environmental problems caused by reliance on fossil fuels. We seek unique approaches aimed at developing and using alternative forms of energy that will be sustainable into the future.

Green Team Arrowhead's ultimate goal is to transform our mountain community into a

sustainable environment other communities will want to emulate. We will accomplish this through education, consultation, and efforts to bring environmental organizations together to reach a common goal.

**Please join us in helping to save our planet one community at a time:**

### Did you know?

- Every hour enough sunlight reaches the earth's surface that could potentially provide the world with power for one year.
- The amount of energy Americans use doubles about every 20 years. Electricity consumption is expected to increase 45 percent by 2030, according to the U.S. Department of Energy's Energy Information Administration (EIA).
